Data Control and Research, Ltd. is a leader in the field of information systems for the K-12 education in the State of Illinois. With over 30 years of experience, the software has been implemented in district and regional offices serving over 250 school districts ranging in size from a few hundred to over 10,000 students.

Today, Data Control and Research continues to take advantage of technological advances to improve and enhance the core architecture of the software suite. By combining innovation and a tradition of excellent quality and unmatched service, Data Control and Research remains a leader for Integrated Administrative Software Suite in the K-12 market place.

Reduce the time for answers

It is frustrating to leave voicemail messages and playing phone tag with technical support representatives. We eliminate that annoyance. Our staff will answer your phone call and direct your call to one of our staff that can give you the right answers, immediately.

A.I.M.S. System

Administrative Interactive Management System

INTEGRATED SYSTEM

The application suite and optional modules are designed to work together for seamless workflow and user-friendly interface.
